LED Headlights and Ditch Lights

PowerRail Australia is pleased to offer our NEW LED PAR46 24V Headlight and Ditch Light. With Advanced Cree 5th Generation LED Chip design, these bulbs offer the following benefits:

- Wide Voltage Range - Operates on 24VDC (20V–90V input)
- High Output - 20,000 to 30,000 candelas
- Versatile Use - Suitable for headlight or ditch light applications
- Durable - Resistant to excessive shock and vibration
- Long Service Life - Rated for 50,000+ hours, reducing maintenance costs
- Flashing Capability - Use with PowerRail Part #16188658 to enable flash function
- Superior Visibility - Improves safety at grade crossings compared to halogen bulbs

**PowerRail Part#
SLS-PAR46**

- Provides IP68 Protection from Water Damage
- Built-in LED Driver - No Rewiring or Modifications Required
- Significant Energy Savings – 14W LED vs. 70W Halogen
- Operates on 2 Settings - DIM and BRIGHT
- Meets or exceeds all RISSB safety requirements
- Is a direct replacement for the HELLA 9.1513.01
